

OXYSHRED

THE ULTIMATE THERMOGENIC FAT BURNER

OxyShred is a scientifically researched thermogenic fat burner. OxyShred will stimulate your body's fat receptor cells and boost your metabolism to promote an increased level of fat cell break-down, known as "Hyper-Lipolysis". This is a complex process of efficient subcutaneous fat cell break-down based on scientific ratios and concentrations of the key ingredients. OxyShred also has the added benefits of kick starting the metabolism, curbing your appetite, limiting calorie absorption, boosting immunity and providing a natural boost of energy.

BENEFITS:

- 1 Mobilize and burn stubborn fat cells
- 2 Gives you energy throughout the day
- 3 Boosts your metabolism and immunity, helping your body destroy stubborn fat cells
- 4 Limits calorie absorption & tastes delicious
- 5 100% natural flavors that taste amazing
- 6 Increases your natural energy and concentration, so that you can train harder and achieve more

WHEN:

For optimum results take twice daily - Mix 1 scoop with 10 ounces (295 ml) of chilled water first thing in the morning on an empty stomach, and on training days, consume 15 minutes prior to exercise. Avoid eating or consuming a protein shake within 20 minutes after consumption for maximum absorption.

6 GREAT FLAVORS

- Guava Paradise
- Kiwi Strawberry
- Mango
- Passionfruit
- Pink Grapefruit
- Wild Melon

WEIGHT LOSS BEGINNER STACK

Add a scoop of Acetyl L-Carnitine to improve the effectiveness of OxyShred both pre-workout and first thing in the morning to take your fat loss to the next level.

FAT LOSS ESSENTIALS STACK

Stacking OxyWhey with OxyShred and Acetyl L-Carnitine ensures you maintain sufficient protein intake for lean muscle growth and repair, while boosting your immunity, curbing your appetite and improving satiety to reduce cravings.

OXYWHEY

THE OPTIMAL WEIGHT LOSS PROTEIN SHAKE

OxyWhey lean whey protein is a 100% grass-fed weight management protein that can also be used as a lifestyle protein to replace meals. OxyWhey is a premium blend comprising of Whey Protein Isolate, Whey Protein Concentrate and Micellar Casein, meaning it has a 3-tier absorption system that improves satiety and makes you feel fuller for longer making it extremely effective for weight loss. OxyWhey also contains many other ingredients to maximize it's effectiveness as a fat burner protein such as metabolism boosters, MCT oils, digestive enzymes, and mood enhancers.

With 24 grams of lean whey protein per serving, virtually no carbs, sugars, cholesterol or lactose, OxyWhey will help you achieve a healthy daily protein intake while promoting weight loss, lean muscle growth and recovery.

BENEFITS:

- 1 24g of lean protein per scoop for lean muscle growth & repair
- 2 Easily digested due to inclusion of digestive enzymes
- 3 Loaded with BCAA's, mood enhancers and immunity boosters
- 4 Metabolism boosting compounds
- 5 Amazing flavors and tastes great

WHEN:

- 1 Use it to boost your breakfast - mix with oats, or a shake
- 2 Effective meal replacement to promote satiety
- 3 Post-workout to maximize recovery
- 4 Use it in baking to increase protein content of your recipes

6 GREAT FLAVORS

- Banana Bliss
- Delicious Chocolate
- Mocha
- Strawberry Milkshake
- Swiss Chocolate
- Vanilla Ice Cream

FAT LOSS ESSENTIALS STACK

Stacking OxyWhey with OxyShred and Acetyl L-Carnitine ensures you maintain sufficient protein intake for lean muscle growth and repair, while boosting your immunity, curbing your appetite and improving satiety to reduce cravings.

ENHANCED DAY & NIGHT FAT LOSS STACK

Stacking OxyRem for men and women along with OxyShred and Acetyl L-Carnitine ensures you will have optimal fat burning throughout the day, as well as while you sleep. The addition of OxyWhey ensures you maintain sufficient protein intake for lean muscle growth and repair.

OXYREM

BURN FAT WHILE YOU SLEEP

If you're serious about your weight loss, looking to sleep better, recover faster, feel more energetic and burn fat, then using the right products and stacking your products in the right way is crucial. OxyRem is scientifically formulated with effective ingredients combined to synergistically work on various metabolic, endocrine and neural pathways in the body. By regulating your sleep patterns to promote REM your body will not only recover faster, your brain will naturally release growth hormones, enhancing your muscle growth.

BENEFITS FOR MEN:

- 1 3-in-1: deep sleep, natural growth hormone release and non stimulant fat burner
- 2 Works on various metabolic, endocrine and neural pathways in the body
- 3 Melatonin and Zinc help regulate sleep cycles to promote REM deep sleep
- 4 GABA promotes the natural release of 2 specific forms of growth hormones

BENEFITS FOR WOMEN:

- 1 Bedtime fat burning, non-stimulant thermogenic
- 2 Scientifically formulated to promote REM deep sleep
- 3 Curbs your appetite
- 4 Boosts your metabolism
- 5 Melatonin, GABA and Zinc help to reduce symptoms of anxiety and regulate the sleep and wake cycles

WHEN:

Consume OxyRem 15 minutes prior to bedtime. Ensure you're ready to sleep straight away.

DAY & NIGHT FAT LOSS STACK

Stacking OxyRem for men and women along with OxyShred and Acetyl L-Carnitine ensures you will have optimal fat burning throughout the day, as well as while you sleep.

ENHANCED DAY & NIGHT FAT LOSS STACK

Stacking OxyRem for men and women along with OxyShred and Acetyl L-Carnitine ensures you will burn fat throughout the day and while you sleep. The addition of OxyWhey ensures you maintain sufficient protein intake for lean muscle growth and repair.

ACETYL L-CARNITINE

SWITCH ON YOUR FAT BURNING

Acetyl L-Carnitine is often used as a fat burner and while it is not as potent as thermogenics (which boost metabolism), Acetyl L-Carnitine makes fat more mobile and better able to enter the fat-burning cells called mitochondria. This “switches on” fat burning so you can burn fat more effectively – especially during exercise. This is why Acetyl L-Carnitine is often added to pre and intra-workout drinks.

What is Acetyl L-Carnitine? It is a naturally occurring amino acid that promotes the transportation of free fatty acids into the mitochondria (core of the cells), where they are burned off as energy. Acetyl L-Carnitine also assists muscle recovery after strenuous exercise and promotes optimal heart and brain function.

EHP Labs wants to ensure that the Acetyl L-Carnitine pharmaceutical quality is maintained, hence, this product has not been artificially flavored or colored.

BENEFITS:

- 1 Mobilizes and transports fat to use it for energy
- 2 Enhances fat burning
- 3 Provides energy throughout the day and improves focus
- 4 Reduces fat storage
- 5 Faster recovery after workouts
- 6 Maximizes the effects of OxyShred

WHEN:

- 1 First thing in the morning to maximize fat burning throughout the day. Mix it in with your morning OxyShred for great results.
- 2 Mix it with OxyShred, PSI or RP Max 20 minutes before training to provide extra energy, endurance and focus.

WEIGHT LOSS BEGINNER STACK

Add a scoop of Acetyl L-Carnitine to improve the effectiveness of OxyShred both pre-workout and first thing in the morning to take your fat loss to the next level.

FAT LOSS ESSENTIALS STACK

Stacking OxyWhey with OxyShred and Acetyl L-Carnitine ensures you maintain sufficient protein intake for lean muscle growth and repair, while boosting your immunity, curbing your appetite and improving satiety to reduce cravings.
